International Diploma in Computing

NVQ Level - 4

NQF Level - 3

Duration – 6 months (week days and weekends)

Assessment - Assessment consists of a mix of Assignments and a Project

Introduction to the programme

The International Diploma in Computing is awarded by EdHat International UK is a specially designed for the students who require a gateway and transitional path to embark on continuing their degree studies at leading Universities with the intention of completing professional higher studies either in Sri Lanka or in any other states. This well-structured, academic and career international diploma is the first stage of the computer studies which lead to computing and IT administrations related career/s for these international diploma students. The units/subjects were tailored in purposive and objective ways and methods to ensure that the students obtain necessary knowledge and training for the successful transition from their International Diploma/s to their second stage of higher studies which takes them to a computing and or IT administration related career.

Suitable for

The programme is specially designed for students who has two GCE Advanced level passes and or for the students who has five average grade — B|| passes in GCE ordinary level examinations, including Mathematics & English. or related NQF level 3 qualifications. or An access to higher education certificate awarded by an approved further education institution.

Also the programme is open for people with past work experience, mature learners may present a more varied profile of achievement that is likely to include extensive work experience (paid and/or unpaid) and/or achievement of a range of professional qualifications in their work sector.
